Section - E: Selection of Bidder

The Bank will scrutinize the Bid/s received to determine whether they are complete in all respects as per the requirement of RFP, whether the documents have been properly signed, whether items are offered as per RFP requirements and whether technical documentation as required to evaluate the offer has been submitted.
- 1.2. Prior to detailed evaluation, the Bank will determine the substantial responsiveness of each Bid to the bidding document. Substantial responsiveness means that the bid conforms to all terms and conditions, scope of work and technical specifications and bidding document is submitted without any deviations.

2. Clarification of Offers:

- 2.1. During the process of scrutiny, evaluation, and comparison of offers, the Bank may, at its discretion, seek clarifications from all the bidders/ any of the bidders on the offer made by them. The bidder must respond to the bank and submit the relevant proof /supporting documents required against clarifications, if applicable. The request for such clarifications and the Bidders response will necessarily be in writing and it should be submitted within the time frame stipulated by the Bank.
- 2.2. The Bank may, at its discretion, waive any minor non-conformity or any minor irregularity in the offer. Bank's decision with regard to 'minor non-conformity' is final and the waiver shall be binding on all the bidders and the Bank reserves the right for such waiver.

3. Evaluation of Bids:

- 3.1. The Bank will evaluate the bid submitted by the bidders under this RFP. The Bid will be evaluated by a committee of officers of the Bank. If warranted, the Bank may engage the services of external consultants for evaluation of the bid. It is Bank's discretion to decide at the relevant point of time.

3.2. Part - A: Conformity to Eligibility Criteria:

The Part A- Conformity to Eligibility Criteria submitted by the bidder will be evaluated based on Eligibility Criteria mentioned in the RFP and on the documents submitted as per **Appendix-A**. The proof of documents submitted by the bidder will be evaluated by the Bank and Bank will seek clarification, if required.

The Techno-Commercial evaluation process will consist of two stages:

- a. Technical Evaluation
- b. Commercial Evaluation

The evaluation process aims to find out the best fit (based on technical and commercial evaluation) of bidder and can be summarized in the following points

3.3. **Part - B: Technical Proposal:**

- a. The Part B - Technical Proposal of only those bidders who qualified in Part A - Conformity to Eligibility Criteria, will be opened with due communication by the Bank. The Part B- Technical Proposal submitted by the bidder will be evaluated by the Bank based on proof of documents submitted as per Appendix B and Bank will seek clarification, if required. The technical evaluation shall be performed first to identify the list of technically qualified service providers as per the technical evaluation criteria defined in the RFP. Each bidder shall be assigned a Technical Score (T).
- b. The Technical Evaluation will be as per Scope of Work of this RFP.
- c. Technical Bid evaluation carries weightage of 70%
- d. **Bidders must fully comply with requirements. Non-compliance to anyone of the requirements leads to disqualification of the Bidder in Part B - Technical Proposal.**
- e. If any part of the technical specification offered by the bidder is different from the specifications sought in our RFP, the bidder has to substantiate the same in detail the reason for their quoting a different specification than what is sought for, like higher version or non-availability of the specifications quoted by us, invariably to process the technical offer. Bank reserves the right to waive / not accept any of the Technical and Functional Specifications quoted by the Bidder during technical evaluation.
- f. The Bank shall not allow/permit changes in the technical specifications once it is submitted.

The technical evaluation will have 70% weightage and Commercial evaluation shall have 30% weightage. These weightages shall be taken into consideration for arriving at the Successful Bidder. The evaluation methodologies vis-a-vis the weightages are as under:

The Score will be calculated for all eligible and technically qualified Bidder based on the following formula: $S = (T \times 70 / T_{\text{high}}) + (L_{\text{low}} \times 30 / L)$

Where:

S = Score of the Bidder

T = Technical score of the Bidder

T high = Highest Technical score among the Bidders

L = TCO by the vendor for period of 7 years

L low = Minimum quoted TCO amongst vendors for the entire scope of work covered in this RFP document.

Technical score will be arrived at treating the marks of the Bidder scoring the highest marks (X) in technical evaluation as 100. Technical score for other Bidders (Y and Z) will be computed using the formula Marks of other Bidders (Y and Z) / Marks of highest scorer (X)*70.

Similarly, Commercial Score of all technically cleared Bidders will be arrived at taking the cost quoted by L1 Bidder i.e., the lowest quote from all technically qualified Bidder (say Z) as 100.

Marks for other Bidders will be calculated using the formula Commercial Score = Cost of L1 Bidder / Cost quoted by Bidder *30.

A “Combined score” will be arrived at, considering both marks scored through Technical Bid evaluation and the nominal commercial quotes with a weightage of 70% for the Technical Bid and 30% for the Commercial Bid as described below. The combined score is arrived at by adding Technical Score and Commercial Score. The successful Bidder will be the one who has highest Combined Score.

Sl no	Bidder	Technical Evaluation Mark (T)	Nominal Bid Price in INR (L)	Technical Score	Commercial Score	Combined Score (Out of 100) (S)
1	X	95 (T1)	75 (L3)	$95/95*70= 70$	$65/75*30= 26$	96
2	Y	90 (T2)	70 (L2)	$90/95*70= 66.31$	$65/70*30= 27.85$	94.16
3	Z	85 (T3)	65 (L1)	$85/95*70= 62.63$	$65/65*30= 30$	92.63

In the above example Bidder X with combined score (S) highest becomes the successful Bidder.

The Bidder securing the highest score becomes the successful Bidder (H1). For example
- There are three Bidders X, Y and Z.

Decision of the Bank will be final and binding to the successful Bidder.

On combined score if there is a tie, the Bidder with the higher technical score will be awarded the assignment and 4 decimal points shall be considered for calculation of combined score.

The Bank will assign marks for the technical evaluation based on the documents submitted as a part of the Technical Bid Evaluation criteria and the presentation made to the Bank’s technical evaluation committee if requested by the Bank.

Respondents scoring a minimum of 70 marks in the technical bid shall only be considered for commercial bid opening.

However, kindly note that the Bank reserves the right to finalize and if deemed necessary, focus on only the domestic presence of the Bank (and excluding the international presence) from the scope of work, as decided by the Bank. **The Bank’s decision is FINAL in this regard.**
